### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, line 8, "tubes" (between "sound transmitting" and "for transmitting") has been deleted and replaced with -tube--.

In claim 1, line 9, "tubes" (between "sound transmitting" and "including right") has been deleted and replaced with -tube--.

In claim 1, line 16, "tubes" (between "transmitting" and "for sending out") has been deleted and replaced with -tube--.

In claim 1, line 17, "tubes" (after "sound transmitting") has been deleted and replaced with -tube--.

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest all of the limitations of the claims. In particular, there is no suggestion of shape adjusting corrugations which allow a user to adjust the size and shape of the device to correspond to a user's face. Morimoto discloses a speech training device having a U shape and a resonance chamber with sound transmitting

tubes sound outlets and ear hangers which read on the corresponding features of the claimed invention. However, there is no suggestion to provide shape-adjusting corrugations. Other speech training devices with adjustment means are known, as shown for example by Gerwick and Vilms, but these adjustment means are substantially different from those of the present invention, and there is no motivation to combine the teachings of Gerwick or Vilms with those of Morimoto to produce the claimed invention. As a result, the claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Morimoto, Schaefer, Gerwick, Vilms, MacFarlane, Cousino, Brinson, Lindsay, Knopf, Davis, Ryan, Jentges and Rothenberg disclose various speech training devices.
